

MD ANAYTULLAH RAHMANI

Frontend Developer

+91-9631227199 | anaytrahmani1@gmail.com | [linkedin.com/in/anaytrahman](https://www.linkedin.com/in/anaytrahman) | Delhi, India

PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 4 years and 3 Months of experience building scalable, performant web applications using Angular, React, TypeScript, and JavaScript. Proven track record of delivering end-to-end UI solutions in fast-paced enterprise environments. Adept at translating complex business requirements into clean, maintainable code with a strong focus on component architecture, responsive design, and cross-browser compatibility. Seeking a Mid- Senior Frontend Developer role to leverage deep expertise in modern JavaScript frameworks.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frameworks & Libraries: Angular (v8–latest), React.js, RxJS, NgRx, Redux

UI & Styling: Angular Material, Bootstrap, SASS/SCSS, Responsive Web Design

Tools & Platforms: Git, GitHub, REST APIs, JSON, Webpack, NPM, Agile/Scrum, GitHub Copilot, Claude AI, ChatGPT (Generative AI Tools for Code Generation to increase productivity by 50-60%)

Concepts: Component Architecture, SPA Development, Lazy Loading, Performance Optimization, WCAG Accessibility

Certifications: React — HackerRank | Generative AI for Everyone | Prompt Engineering for ChatGPT

Experience: 4.3 Years

PROFESSIONAL EXPERIENCE

Infogain India (Contract) - Noida

Frontend Developer (Jan-07- 2022 – Jul-07- 2022)

- Developed and maintained Angular-based enterprise modules with focus on performance optimization using lazy loading and code splitting.
Built reusable UI components using Angular Material and SCSS to accelerate development across multiple project teams.

Infogain India (Permanent) - Noida

Frontend Developer (Jul-07-2022 – Present)

- Engineered and maintained 10+ Angular modules for enterprise-grade applications, reducing page load time by 30% through lazy loading and code-splitting strategies.
 - Architected reusable Angular component libraries using Angular Material and SCSS, cutting UI development time by 40% across multiple project teams.
 - Integrated RESTful APIs and managed application state using NgRx/RxJS, improving data consistency and reducing race conditions in real-time data flows.
 - Collaborated with backend and UX teams in Agile sprints to deliver responsive, pixel-perfect interfaces aligned with Figma/XD design specifications.
 - Enforced TypeScript best practices across the codebase, reducing runtime errors by 25%, and mentored junior developers on Angular lifecycle and performance tuning.
 - Conducted code reviews, optimized SQL queries for analytics dashboards, and drove cross-functional delivery across a team of 8+ developers.
-

KEY PROJECTS

Interview & Offer Management Module | *Angular, NgRx, Angular Material, REST APIs* — Infogain

- Built an end-to-end interview scheduling and offer management system with configurable workflows, multi-stage approval chains, and real-time status tracking for HR teams handling 500+ requisitions monthly.
- Implemented role-based access control (RBAC) enabling HR managers, interviewers, and admins to operate within permission-scoped views, reducing unauthorized data exposure incidents to zero.

Leave Management & Admin Control System | *Angular, NgRx, Angular Material, REST APIs* — Infogain

- Designed and developed a centralized admin dashboard for leave policy configuration, employee leave tracking, and approval workflows supporting 5,000+ daily active users across multiple departments.
- Integrated real-time data visualization for leave analytics (utilization rates, team availability calendars), enabling HR leadership to make data-driven workforce decisions.
- Guided 3-4 junior developers on UI implementation, bridging project requirements with design solutions; established code review standards that improved UI consistency, code quality, and user experience.

Reusable UI Component Library | *Angular, TypeScript, SCSS, Storybook* — Infogain

- Created a shared component library of 30+ production-ready Angular components (forms, tables, modals, charts) adopted across 3 internal projects, cutting redundant development effort by ~40%.

Production Support & Multi-Project Management | *Angular, TypeScript, SCSS, SQL* — Infogain

- Simultaneously managed 2+ projects while prioritizing production issues and critical bugs; coordinated with clients and stakeholders to identify root causes and implement timely fixes—ensuring minimal downtime and client satisfaction.

EDUCATION

PIEM — Master of Computer Applications (MCA)
Computer Science December 2016 – June 2019 (68.68%)

Delhi, India

B.N. Mandal University, Madhepura — Bachelor of Arts
2011 – 2014 (52.8%)

Bihar, India

12TH From BSEB — Bihar School Examination Board
2011 (58%)

10TH From BSEB — Bihar School Examination Board
2009 (48.2%)
